PANGOLINS HAVE TONGUES
THAT ARE SO LONG THAT
THEY HAVE TO LOOP SOME OF
IT INTO THEIR THROAT WHEN
THEY'RE NOT USING IT!

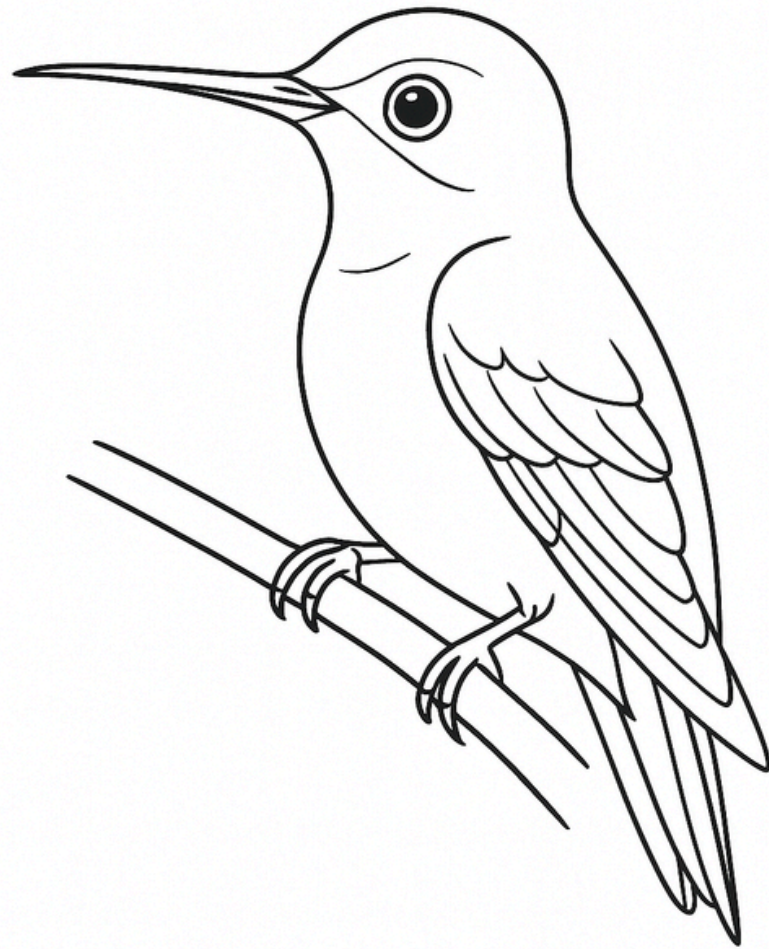

WHEN A SQUID EATS FOOD, THE
FOOD GOES THROUGH ITS
BRAIN BEFORE IT REACHES ITS
STOMACH!

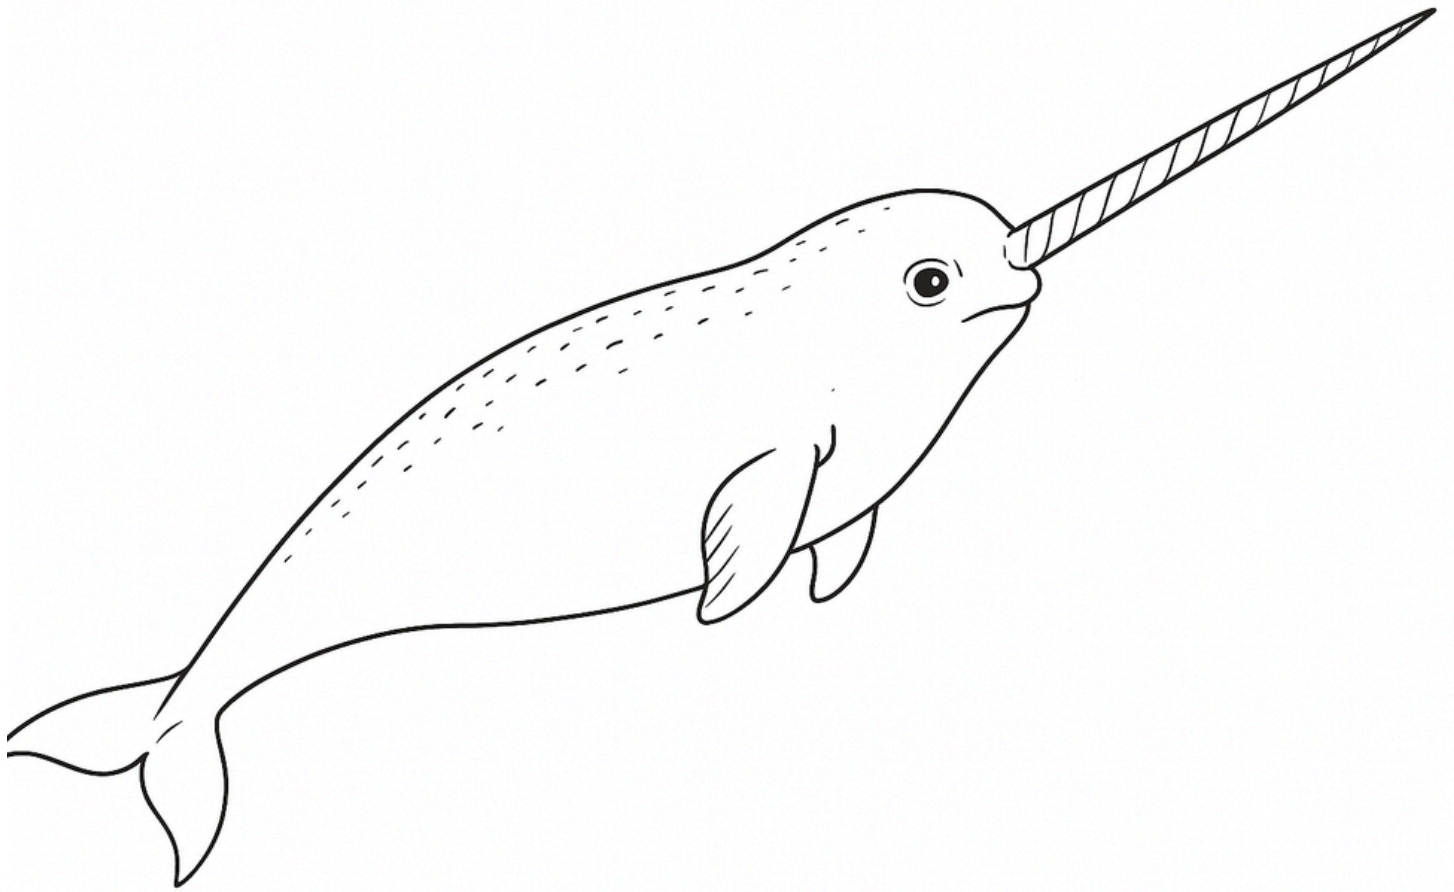

TIGER BEETLES CAN RUN SO
FAST THAT THEIR BRAINS CAN'T
KEEP UP WITH THEIR EYEBALLS
AND THEY GO TEMPORARILY
BLIND!

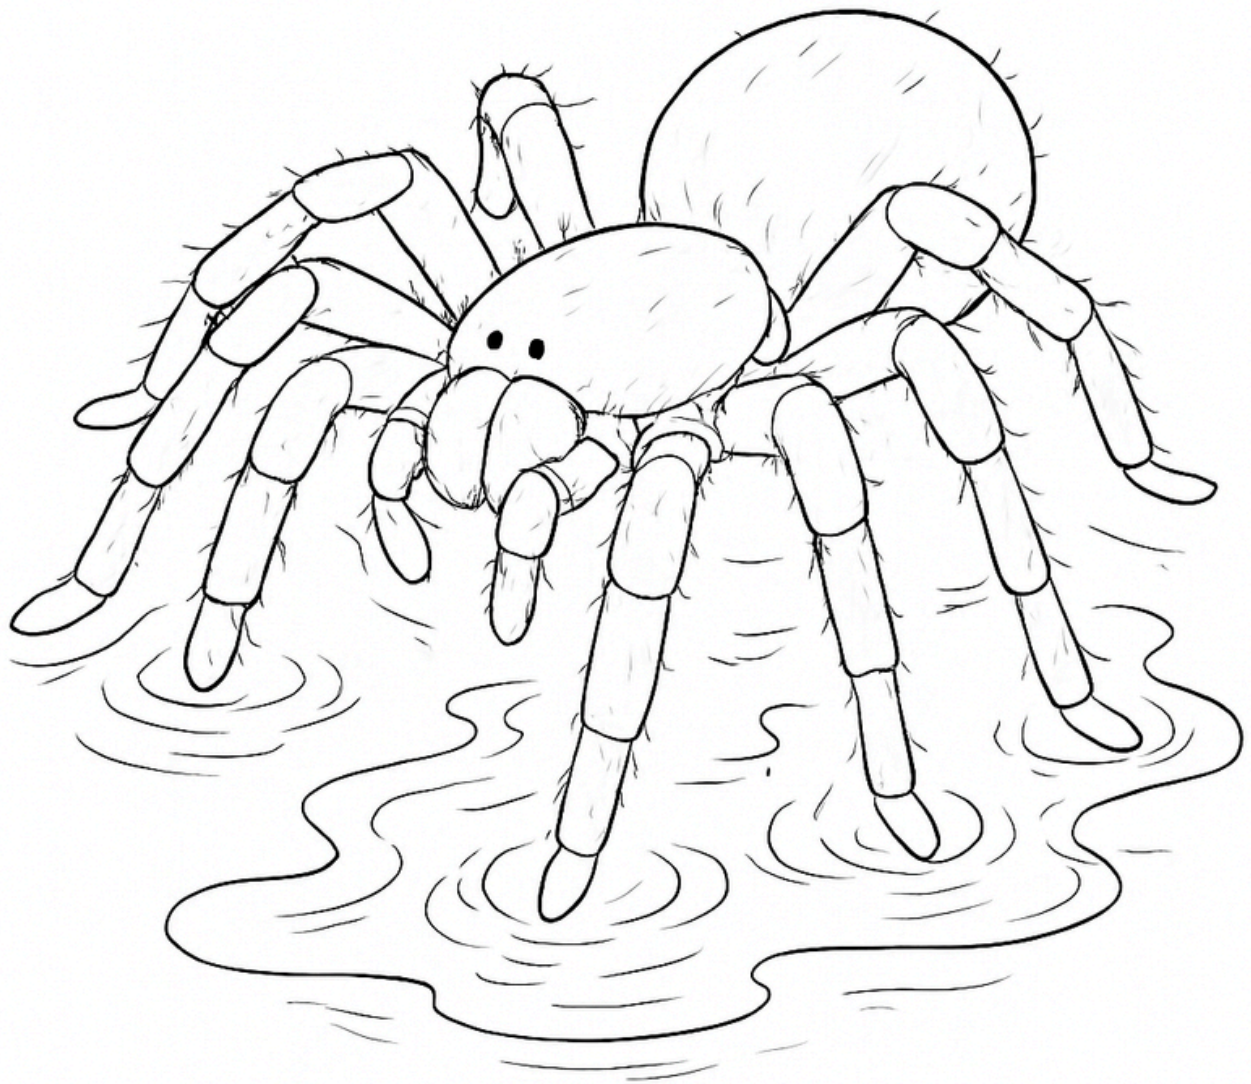

BEAVER TEETH CONTAIN IRON
AND NEVER STOP GROWING!

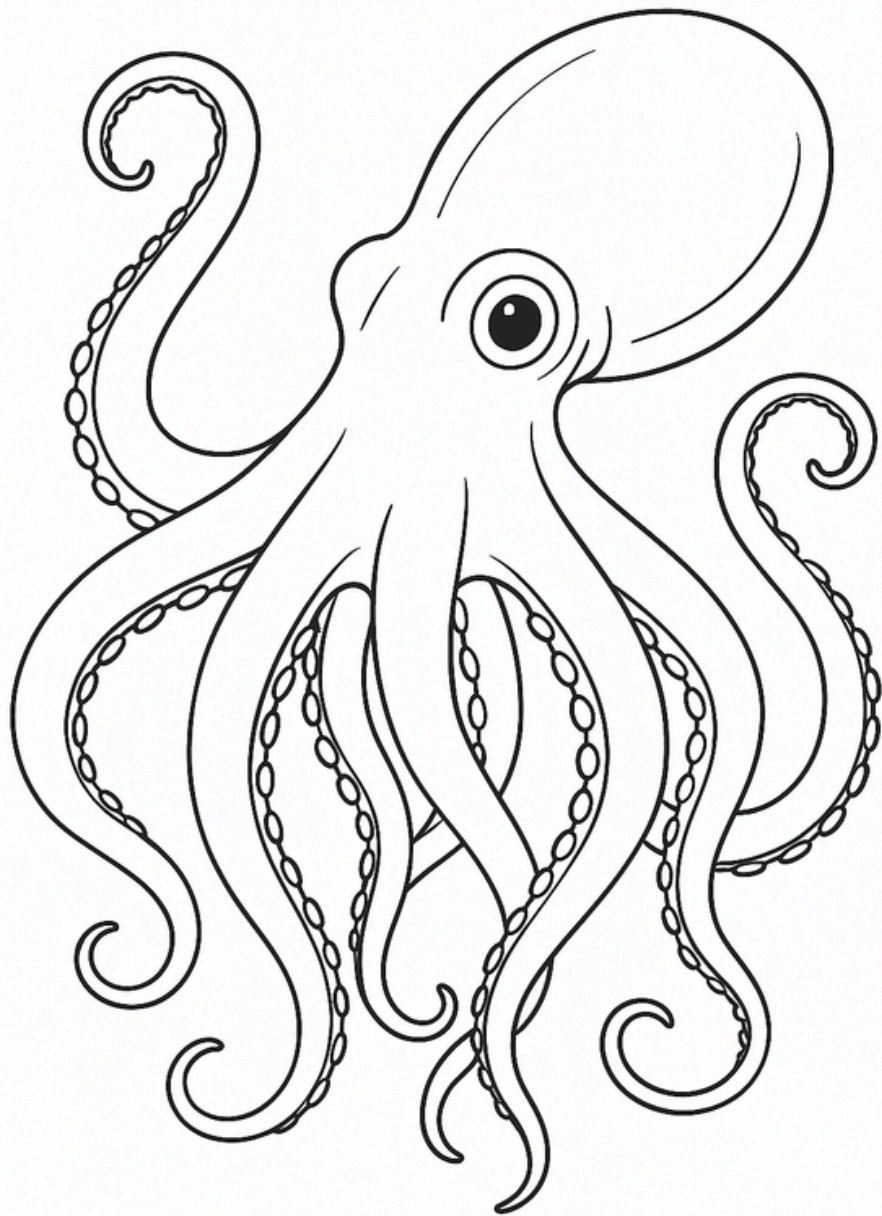

HUMMINGBIRDS HAVE
METABOLISMS SO FAST THAT
THEY CAN'T SLEEP OR THEY
WOULD LITERALLY STARVE TO
DEATH, SO INSTEAD OF
SLEEPING THEY GO INTO A
STATE OF FULL HIBERNATION
EVERY NIGHT!

THE LARGEST TOOTH IN THE
ANIMAL WORLD BELONGS TO
NARWHALS. THEIR TUSK IS
ACTUALLY ONE GIANT TOOTH
THAT GROWS OUT OF THE
FRONT OF THEIR MOUTH!

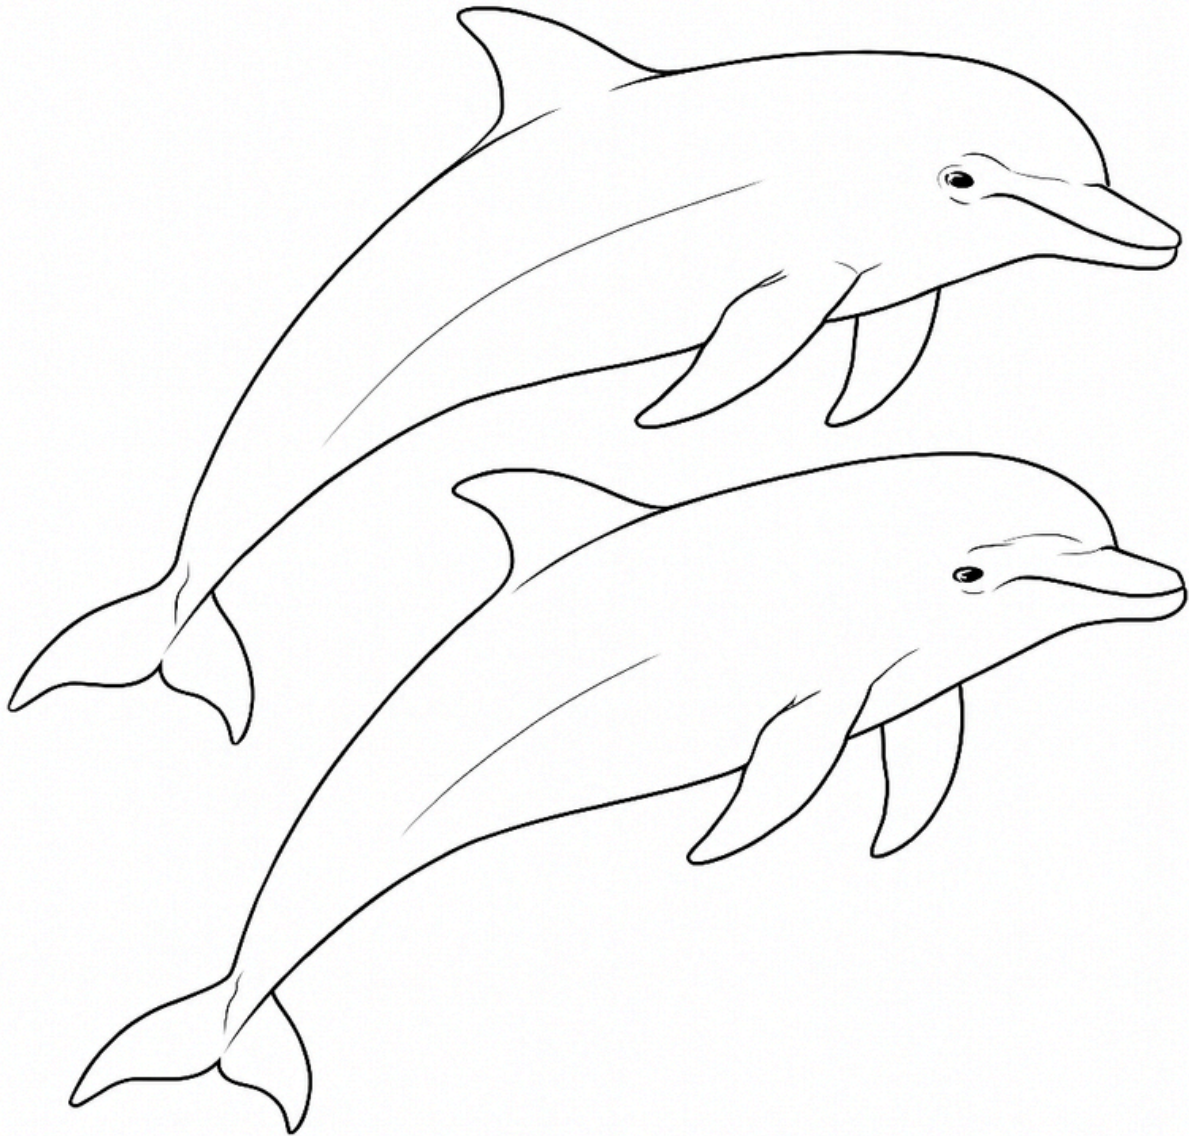

TARANTULAS CAN'T SWIM, BUT
THEY DON'T NEED TO BECAUSE
THEY CAN WALK ON TOP OF
THE WATER! THEY CAN CROSS
RIVERS AND ENTIRE FLOODS
THIS WAY.

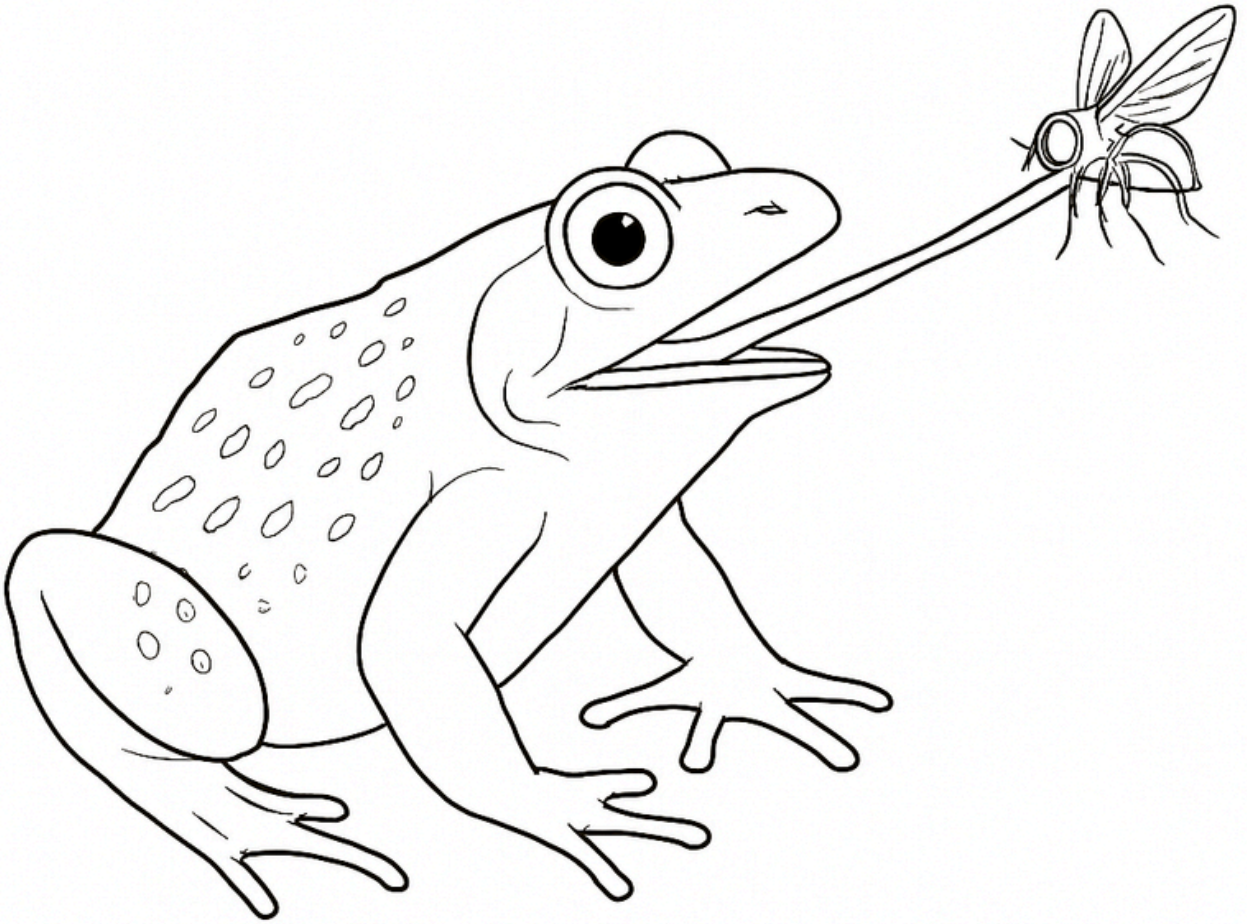

OCTOPUSES HAVE NINE BRAINS
AND EACH OF THEIR ARMS CAN
CONTROL ITSELF
INDEPENDENTLY! THEY ALSO
HAVE THREE HEARTS EACH.

GIANT PANDAS ARE BORN WITH
LONG TAILS, BUT GROW INTO
THEM AS THEY AGE AND END UP
WITH THEIR STUBBY BEAR
TAILS!

DOLPHINS HAVE MULTIPLE
STOMACHS, JUST LIKE COWS
DO! THEY USE THESE TO
PROCESS FISH BECAUSE THEY
DON'T CHEW THEIR FOOD.

FROGS USE THEIR EYEBALLS TO
SWALLOW FOOD, AND CAN'T
BREATHE WITH THEIR MOUTHS
OPEN!

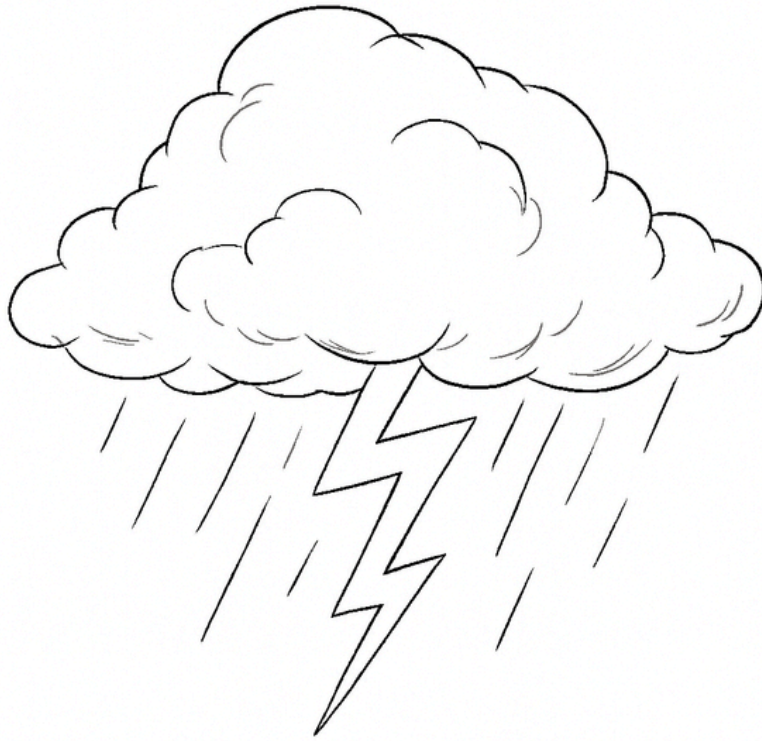

GIANT PANDAS HAVE SLIT
PUPILS IN THEIR EYES, LIKE A
CAT OR FOX!

PLATYPUSES ARE BORN WITH
TEETH, BUT LOSE THEM BEFORE
THEY GROW UP!

YOU MIGHT NOT THINK SO, BUT
HUMANS ARE ACTUALLY THE
BEST IN THE WORLD AT
SMELLING ONCOMING RAIN!

HUMANS CAN SMELL PETRICHOR (THE WET MUSTY SMELL YOU CAN SMELL DURING OR AFTER A RAINSTORM) MORE THAN TEN TIMES BETTER THAN A SHARK CAN SMELL BLOOD IN THE WATER.

YOU CAN TRY IT YOURSELF- THE NEXT TIME A STORM IS PREDICTED, STAND OUTSIDE, TAKE SOME DEEP SNIFFS, AND SEE IF YOU CAN SMELL IT COMING!
