## ANDI CARTER PAPER DOLL AND CHRISTMAS BALL CLOTHES

### You will need:

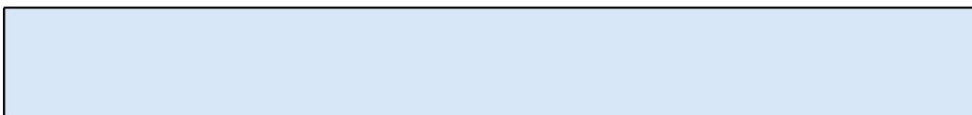

- two 3/4" ultra-thin circle Velcro™ “hook” circles
- half a dozen (about) ultra-thin Velcro™ “loop” dots for the clothes
- heavy, glossy (if possible) cardstock for the dolls; heavy paper (#28 suggested) for clothes
- scissors
- two laminating sheets (or clear contact paper) for extra durability.

1. Laminate the sheets.
2. Cut out the doll and the stand strip.
3. Peel the 3/4" Velcro™ hook pieces and attach where indicated on the doll figure. The extra Velcro helps keep the longer clothes attached.
4. Cut out the clothes.
5. It is important to attach the 1/2" Velcro™ loop dots to the back of the outfit in such a way that they line up with the large Velcro™ hook pieces on the doll. Here is the trick:
  - Position the loop dot in the center of the hook piece on the doll—Velcro to Velcro.
  - Peel the paper from the dot, exposing the adhesive.
  - Line up the outfit against the doll and press firmly. The adhesive should stick to the back of the outfit.
